1 Introduction

The 21st International Conference on Particles and Nuclei (PANIC 2017), organized by the Institute of High Energy Physics (IHEP), Chinese Academy of Sciences, will be held in Beijing from September 1 to 5, 2017. This conference is the 21st in the series of triennial conferences which bring together the Particle and Nuclear Physics communities.

2 Venue

The conference takes place in the [China National Convention Center](#) which is located close to the city center and easily reachable by public transportation.

3 Scientific Program

The scientific program of PANIC addresses a broad range of topics at the interface between particle, nuclear and astrophysics. Special emphasis will be devoted to recent discoveries and results. The program will consist of plenary, parallel and poster sessions. Main topics including the following items:

Hot and dense matter physics (QGP and heavy ion collision)	Energy frontier physics beyond the standard model
Hadron spectroscopy and exotics	Flavor physics - CKM and beyond
Neutrino physics	Tests of symmetries and conservation laws
Dark matter and cosmology	Hadrons in medium - hyperons and mesons in nuclear matter
Nuclear and particle astrophysics	Development of accelerators and detectors
Standard model physics at the TeV scale	Applications of nuclear particle physics technology
